Cranial/Cervical Orthoses

L0112 – Cranial cervical orthosis, congenital torticollis type, with or without soft interface material, adjustable range of motion joint, custom fabricated

* S1040 – Cranial remolding orthosis, pediatric, rigid, with soft interface material, custom fabricated, includes fitting and adjustment(s)

L0120 – Cervical, flexible, non-adjustable (foam collar)
L0130 – Cervical, flexible, thermoplastic collar, molded to patient
L0140 – Cervical, semi-rigid, adjustable (plastic collar)
L0150 – Cervical, semi-rigid, adjustable molded chin cup (plastic collar with mandibular/occipital piece)
L0160 – Cervical, semi-rigid, wire frame occipital/mandibular support
L0170 – Cervical, collar, molded to patient model
L0172 – Cervical, collar, semi-rigid thermoplastic foam, two piece
L0174 – Cervical, collar, semi-rigid, thermoplastic foam, two piece with thoracic extension
L0180 – Cervical, multiple post collar, occipital/mandibular supports, adjustable
L0190 – Cervical, multiple post collar, occipital/mandibular supports, adjustable cervical bars
   (Somi, Guilford, Taylor types)
L0200 – Cervical, multiple post collar, occipital/mandibular supports, adjustable cervical bars, and thoracic extension

* S1040 Invalid for submission to Medicare but may be acceptable for other insurers.

Spinal Orthoses

L0210 – Thoracic, rib belt
L0220 – Thoracic, rib belt, custom fabricated
L0430 – Spinal orthosis, anterior-posterior-lateral control, with interface material, custom fitted
   (DeWall Posture Protector only)
L0450 – TLSO, flexible, provides trunk support, upper thoracic region, produces intracavitary pressure to reduce load on the intervertebral discs with rigid stays or panel(s), includes shoulder straps and closures, prefabricated includes fitting and adjustment
L0452 – TLSO, flexible, provides trunk support, upper thoracic region, produces intracavitary pressure to reduce load on the intervertebral discs with rigid stays or panel(s), includes shoulder straps and closures, custom fabricated
L0454 – TLSO, flexible, provides trunk support, extends from sacrococcygeal junction to above T-9 vertebra, restricts gross trunk motion in the sagittal plane, produces intracavitary pressure to reduce load on the intervertebral discs with rigid stays or panel(s), includes shoulder straps and closures, prefabricated, includes fitting and adjustment
L0456 – TLSO, flexible, provides trunk support, thoracic region, rigid posterior panel and soft anterior apron, extends from the sacrococcygeal junction and terminates just inferior to the scapular spine, restricts gross trunk motion in the sagittal plane, produces intracavitary pressure to reduce load on the intervertebral discs, includes straps and closures, prefabricated, includes fitting and adjustment
L0458 – TLSO, triplanar control, modular segmented spinal system, two rigid plastic shells, posterior extends from the sacrococcygeal junction and terminates just inferior to the scapular spine, anterior extends from the symphysis pubis to the xiphoid, soft liner, restricts gross trunk motion in the sagittal, coronal, and transverse planes, lateral strength is provided by overlapping plastic and stabilizing closures, includes straps and closures, prefabricated, includes fitting and adjustment
L0460 – TLSO, triplanar control, modular segmented spinal system, two rigid plastic shells, posterior extends from the sacroccygeal junction and terminates just inferior to the scapular spine, anterior extends from the symphysis pubis to the sternal notch, soft liner, restricts gross trunk motion in the sagittal, coronal, and transverse planes, lateral strength is provided by overlapping plastic and stabilizing closures, includes straps and closures, prefabricated, includes fitting and adjustment

L0462 – TLSO, triplanar control, modular segmented spinal system, three rigid plastic shells, posterior extends from the sacroccygeal junction and terminates just inferior to the scapular spine, anterior extends from the symphysis pubis to the sternal notch, soft liner, restricts gross trunk motion in the sagittal, coronal, and transverse planes, lateral strength is provided by overlapping plastic and stabilizing closures, includes straps and closures, prefabricated, includes fitting and adjustment

L0464 – TLSO, triplanar control, modular segmented spinal system, four rigid plastic shells, posterior extends from sacroccygeal junction and terminates just inferior to scapular spine, anterior extends from symphysis pubis to the sternal notch, soft liner, restricts gross trunk motion in the sagittal, coronal, and transverse planes, lateral strength is provided by overlapping plastic and stabilizing closures, includes straps and closures, prefabricated, includes fitting and adjustment

L0466 – TLSO, sagittal control, rigid posterior frame and flexible soft anterior apron with straps, closures and padding, restricts gross trunk motion in sagittal plane, produces intracavitary pressure to reduce load on intervertebral discs, includes fitting and shaping the frame, prefabricated, includes fitting and adjustment

L0468 – TLSO, sagittal-coronal control, rigid posterior frame and flexible soft anterior apron with straps, closures and padding, extends from sacroccygeal junction over scapulae, lateral strength provided by pelvic, thoracic, and lateral frame pieces, restricts gross trunk motion in sagittal, and coronal planes, produces intracavitary pressure to reduce load on intervertebral discs, includes fitting and shaping the frame, prefabricated, includes fitting and adjustment

L0470 – TLSO, triplanar control, rigid posterior frame and flexible soft anterior apron with straps, closures and padding, extends from sacroccygeal junction to scapula, lateral strength provided by pelvic, thoracic, and lateral frame pieces, restricts gross trunk motion in sagittal, coronal, and transverse planes, produces intracavitary pressure to reduce load on the intervertebral discs, includes fitting and shaping the frame, prefabricated, includes fitting and adjustment

L0472 – TLSO, triplanar control, hyperextension, rigid anterior and lateral frame extends from symphysis pubis to sternal notch with two anterior components (one pubic and one sternal), posterior and lateral pads with straps and closures, limits spinal flexion, restricts gross trunk motion in sagittal, coronal, and transverse planes, includes fitting and shaping the frame, prefabricated, includes fitting and adjustment

L0480 – TLSO, triplanar control, one piece rigid plastic shell without interface liner, with multiple straps and closures, posterior extends from sacroccygeal junction and terminates just inferior to scapular spine, anterior extends from symphysis pubis to sternal notch, anterior or posterior opening, restricts gross trunk motion in sagittal, coronal, and transverse planes, includes a carved plaster or cad-cam model, custom fabricated

L0482 – TLSO, triplanar control, one piece rigid plastic shell with interface liner, multiple straps and closures, posterior extends from sacroccygeal junction and terminates just inferior to scapular spine, anterior extends from symphysis pubis to sternal notch, anterior or posterior opening, restricts gross trunk motion in sagittal, coronal, and transverse planes, includes a carved plaster or cad-cam model, custom fabricated

L0484 – TLSO, triplanar control, two piece rigid plastic shell without interface liner, with multiple straps and closures, posterior extends from sacroccygeal junction and terminates just inferior to scapular spine, anterior extends from symphysis pubis to sternal notch, lateral strength is
enhanced by overlapping plastic, restricts gross trunk motion in the sagittal, coronal, and transverse planes, includes a carved plaster or cad-cam model, custom fabricated

L0486 – TLSO, triplanar control, two piece rigid plastic shell with interface liner, multiple straps and closures, posterior extends from sacrococcygeal junction and terminates just inferior to scapular spine, anterior extends from symphysis pubis to sternal notch, lateral strength is enhanced by overlapping plastic, restricts gross trunk motion in the sagittal, coronal, and transverse planes, includes a carved plaster or cad-cam model, custom fabricated

L0488 – TLSO, triplanar control, one piece rigid plastic shell with interface liner, multiple straps and closures, posterior extends from sacrococcygeal junction and terminates just inferior to scapular spine, anterior extends from symphysis pubis to sternal notch, anterior or posterior opening, restricts gross trunk motion in sagittal, coronal, and transverse planes, prefabricated, includes fitting and adjustment

L0490 – TLSO, sagittal-coronal control, one piece rigid plastic shell, with overlapping reinforced anterior, with multiple straps and closures, posterior extends from sacrococcygeal junction and terminates at or before the T-9 vertebra, anterior extends from symphysis pubis to xiphoid, anterior opening, restricts gross trunk motion in sagittal and coronal planes, prefabricated, includes fitting and adjustment

L0491 – TLSO, sagittal-coronal control, modular segmented spinal system, two rigid plastic shells, posterior extends from the sacrococcygeal junction and terminates just inferior to the scapular spine, anterior extends from the symphysis pubis to the xiphoid, soft liner, restricts gross trunk motion in the sagittal and coronal planes, lateral strength is provided by overlapping plastic and stabilizing closures, includes straps and closures, prefabricated, includes fitting and adjustment

L0492 – TLSO, sagittal-coronal control, modular segmented spinal system, three rigid plastic shells, posterior extends from the sacrococcygeal junction and terminates just inferior to the scapular spine, anterior extends from the symphysis pubis to the xiphoid, soft liner, restricts gross trunk motion in the sagittal and coronal planes, lateral strength is provided by overlapping plastic and stabilizing closures, includes straps and closures, prefabricated, includes fitting and adjustment

L0621 – Sacroiliac orthosis, flexible, provides pelvic-sacral support, reduces motion about the sacroiliac joint, includes straps, closures, may include pendulous abdomen design, prefabricated, includes fitting and adjustment

L0622 – Sacroiliac orthosis, flexible, provides pelvic-sacral support, reduces motion about the sacroiliac joint, includes straps, closures, may include pendulous abdomen design, custom fabricated

L0623 – Sacroiliac orthosis, provides pelvic-sacral support, with rigid or semi-rigid panels over the sacrum and abdomen, reduces motion about the sacroiliac joint, includes straps, closures, may include pendulous abdomen design, prefabricated, includes fitting and adjustment

L0624 – Sacroiliac orthosis, provides pelvic-sacral support, with rigid or semi-rigid panels placed over the sacrum and abdomen, reduces motion about the sacroiliac joint, includes straps, closures, may include pendulous abdomen design, custom fabricated

L0625 – Lumbar orthosis, flexible, provides lumbar support, posterior extends from L-1 to below L-5 vertebra, produces intracavitary pressure to reduce load on the intervertebral discs, includes straps, closures, may include pendulous abdomen design, shoulder straps, stays, prefabricated, includes fitting and adjustment

L0626 – Lumbar orthosis, sagittal control, with rigid posterior panel(s), posterior extends from L-1 to below L-5 vertebrae, produces intracavitary pressure to reduce load on the intervertebral discs, includes straps, closures, may include padding, stays, shoulder straps, pendulous abdomen design, prefabricated, includes fitting and adjustment

L0627 – Lumbar orthosis, sagittal control, with rigid anterior and posterior panels, posterior extends from L-1 to below L-5 vertebra, produces intracavitary pressure to reduce load on the
intervertebral discs, includes straps, closures, may include padding, shoulder straps, pendulous
abdomen design, prefabricated, includes fitting and adjustment
L0628 – Lumbar-sacral orthosis, flexible, provides lumbo-sacral support, posterior extends from
sacroccygeal junction to T-9 vertebra, produces intracavitary pressure to reduce load on the
intervertebral discs, includes straps, closures, may include stays, shoulder straps, pendulous
abdomen design, prefabricated, includes fitting and adjustment
L0629 – Lumbar-sacral orthosis, flexible, provides lumbo-sacral support, posterior extends from
sacroccygeal junction to T-9 vertebra, produces intracavitary pressure to reduce load on the
intervertebral discs, includes straps, closures, may include stays, shoulder straps, pendulous
abdomen design, custom fabricated
L0630 – Lumbar-sacral orthosis, sagittal control, with rigid posterior panel(s), posterior extends
from sacroccygeal junction to T-9 vertebra, produces intracavitary pressure to reduce load on
the intervertebral discs, includes straps, closures, may include padding, stays, shoulder
straps, pendulous abdomen design, prefabricated, includes fitting and adjustment
L0631 – Lumbar-sacral orthosis, sagittal control, with rigid anterior and posterior panels,
posterior extends from sacroccygeal junction to T-9 vertebra, produces intracavitary pressure to reduce load on the intervertebral discs, includes straps, closures, may include
padding, shoulder straps, pendulous abdomen design, custom fabricated
L0632 – Lumbar-sacral orthosis, sagittal control, with rigid anterior and posterior panels,
posterior extends from sacroccygeal junction to T-9 vertebra, produces intracavitary pressure to reduce load on the intervertebral discs, includes straps, closures, may include
padding, shoulder straps, pendulous abdomen design, custom fabricated
L0633 – Lumbar-sacral orthosis, sagittal-coronal control, with rigid posterior frame/panel(s),
posterior extends from sacroccygeal junction to T-9 vertebra, lateral strength provided by
rigid lateral frame/panels, produces intracavitary pressure to reduce load on intervertebral
discs, includes straps, closures, may include padding, stays, anterior panel, pendulous abdomen design, custom fabricated
L0634 – Lumbar-sacral orthosis, sagittal-coronal control, with rigid posterior frame/panel(s),
posterior extends from sacroccygeal junction to T-9 vertebra, lateral strength provided by
rigid lateral frame/panels, produces intracavitary pressure to reduce load on intervertebral
discs, includes straps, closures, may include padding, stays, anterior panel, pendulous abdomen design, custom fabricated
L0635 – Lumbar-sacral orthosis, sagittal-coronal control, lumbar flexion, rigid posterior
frame/panels, lateral articulating design to flex the lumbar spine, posterior extends from
sacroccygeal junction to T-9 vertebra, lateral strength provided by rigid lateral frame/panels,
produces intracavitary pressure to reduce load on intervertebral discs, includes straps, closures,
may include padding, anterior panel, pendulous abdomen design, prefabricated, includes
fitting and adjustment
L0636 – Lumbar-sacral orthosis, sagittal-coronal control, lumbar flexion, rigid posterior
frame/panels, lateral articulating design to flex the lumbar spine, posterior extends from
sacroccygeal junction to T-9 vertebra, lateral strength provided by rigid lateral frame/panels,
produces intracavitary pressure to reduce load on intervertebral discs, includes straps, closures,
may include padding, anterior panel, pendulous abdomen design, custom fabricated
L0637 – Lumbar-sacral orthosis, sagittal-coronal control, with rigid anterior and posterior
frame/panels, posterior extends from sacroccygeal junction to T-9 vertebra, lateral strength
provided by rigid lateral frame/panels, produces intracavitary pressure to reduce load on
intervertebral discs, includes straps, closures, may include padding, shoulder straps, pendulous
abdomen design, prefabricated, includes fitting and adjustment
L0638 – Lumbar-sacral orthosis, sagittal-coronal control, with rigid anterior and posterior
frame/panels, posterior extends from sacroccygeal junction to T-9 vertebra, lateral strength
provided by rigid lateral frame/panels, produces intracavitary pressure to reduce load on intervertebral discs, includes straps, closures, may include padding, shoulder straps, pendulous abdomen design, custom fabricated

L0639 – Lumbar-sacral orthosis, sagittal-coronal control, rigid shell(s)/panel(s), posterior extends from sacrococcygeal junction to T-9 vertebra, anterior extends from symphysis pubis to xiphoid, produces intracavitary pressure to reduce load on the intervertebral discs, overall strength is provided by overlapping rigid material and stabilizing closures, includes straps, closures, may include soft interface, pendulous abdomen design, prefabricated, includes fitting and adjustment

L0640 – Lumbar-sacral orthosis, sagittal-coronal control, rigid shell(s)/panel(s), posterior extends from sacrococcygeal junction to T-9 vertebra, anterior extends from symphysis pubis to xiphoid, produces intracavitary pressure to reduce load on the intervertebral discs, overall strength is provided by overlapping rigid material and stabilizing closures, includes straps, closures, may include soft interface, pendulous abdomen design, custom fabricated

L0700 – CTLSO, anterior-posterior-lateral control, molded to patient model, (Minerva type)

L0710 – CTLSO, anterior-posterior-lateral control, molded to patient model, with interface material, (Minerva type)

L0810 – Halo procedure, cervical halo incorporated into jacket vest

L0820 – Halo procedure, cervical halo incorporated into plaster body jacket

L0830 – Halo procedure, cervical halo incorporated into Milwaukee type orthosis

L0859 – Addition to halo procedure, magnetic resonance image compatible system, rings and pins, any material

L0861 – Addition to halo procedure, replacement liner/interface material

L0970 – TLSO, corset front

L0972 – LSO, corset front

L0974 – TLSO, full corset

L0976 – LSO, full corset

L0978 – Axillary crutch extension

L0980 – Peroneal straps, pair

L0982 – Stocking supporter grips, set of four (4)

L0984 – Protective body sock, each

L0999 – Addition to spinal orthosis, not otherwise specified

**Scoliosis Orthoses**

L1000 – CTLSO (Milwaukee), inclusive of furnishing initial orthosis, including model

L1001 – Cervical thoracic lumbar sacral orthosis, immobilizer, infant size, prefabricated, includes fitting and adjustment

L1005 – Tension based scoliosis orthosis and accessory pads, includes fitting and adjustment

L1010 – Addition to CTLSO or scoliosis orthosis, axilla sling

L1020 – Addition to CTLSO or scoliosis orthosis, kyphosis pad

L1025 – Addition to CTLSO or scoliosis orthosis, kyphosis pad, floating

L1030 – Addition to CTLSO or scoliosis orthosis, lumbar bolster pad

L1040 – Addition to CTLSO or scoliosis orthosis, lumbar or lumbar rib pad

L1050 – Addition to CTLSO or scoliosis orthosis, sternal pad

L1060 – Addition to CTLSO or scoliosis orthosis, thoracic pad

L1070 – Addition to CTLSO or scoliosis orthosis, trapezius sling

L1080 – Addition to CTLSO or scoliosis orthosis, outrigger

L1085 – Addition to CTLSO or scoliosis orthosis, outrigger, bilateral with vertical extensions

L1090 – Addition to CTLSO or scoliosis orthosis, lumbar sling

L1100 – Addition to CTLSO or scoliosis orthosis, ring flange, plastic or leather
L1110 – Addition to CTLSO or scoliosis orthosis, ring flange, plastic or leather, molded to patient model
L1120 – Addition to CTLSO or scoliosis orthosis, cover for upright, each
L1200 – TLSO, inclusive of furnishing initial orthosis only
L1210 – Addition to TLSO, (low profile), lateral thoracic extension
L1220 – Addition to TLSO, (low profile), anterior thoracic extension
L1230 – Addition to TLSO, (low profile), Milwaukee type superstructure
L1240 – Addition to TLSO, (low profile), lumbar derotation pad
L1250 – Addition to TLSO, (low profile), anterior ASIS pad
L1260 – Addition to TLSO, (low profile), anterior thoracic derotation pad
L1270 – Addition to TLSO, (low profile), abdominal pad
L1280 – Addition to TLSO, (low profile), rib gusset (elastic), each
L1290 – Addition to TLSO, (low profile), lateral trochanteric pad
L1300 – Other scoliosis procedure, body jacket molded to patient model
L1310 – Other scoliosis procedure, postoperative body jacket
L1499 – Spinal orthosis, not otherwise specified
L1500 – THKAO, mobility frame (Newington, Parapodium types)
L1510 – THKAO, standing frame, with or without tray and accessories
L1520 – THKAO, swivel walker

**Lower Limb Orthoses**

L1600 – HO, abduction control of hip joints, flexible, Frejka type with cover, prefabricated, includes fitting and adjustment
L1610 – HO, abduction control of hip joints, flexible, (Frejka cover only), prefabricated, includes fitting and adjustment
L1620 – HO, abduction control of hip joints, flexible, (Pavlik harness), prefabricated, includes fitting and adjustment
L1630 – HO, abduction control of hip joints, semi-flexible (Von Rosen type), custom fabricated
L1640 – HO, abduction control of hip joints, static, pelvic band or spreader bar, thigh cuffs, custom fabricated
L1650 – HO, abduction control of hip joints, static, adjustable (Ilfled type), prefabricated, includes fitting and adjustment
L1652 – HO, bilateral thigh cuffs with adjustable abductor spreader bar, adult size, prefabricated, includes fitting and adjustment, any type
L1660 – HO, abduction control of hip joints, static, plastic, prefabricated, includes fitting and adjustment
L1680 – HO, abduction control of hip joints, dynamic, pelvic control, adjustable hip motion control, thigh cuffs (Rancho hip action type), custom fabricated
L1685 – HO, abduction control of hip joint, postoperative hip abduction type, custom fabricated
L1686 – HO, abduction control of hip joint, postoperative hip abduction type, prefabricated, includes fitting and adjustment
L1690 – Combination, bilateral, lumbo-sacral, hip, femur orthosis providing adduction and internal rotation control, prefabricated, includes fitting and adjustment
L1700 – Legg Perthes orthosis, (Toronto type), custom fabricated
L1710 – Legg Perthes orthosis, (Newington type), custom fabricated
L1720 – Legg Perthes orthosis, trilateral, (Tachdijan type), custom fabricated
L1730 – Legg Perthes orthosis, (Scottish Rite type), custom fabricated
L1755 – Legg Perthes orthosis, (Patten bottom type), custom fabricated
L1800 – KO, elastic with stays, prefabricated, includes fitting and adjustment
L1810 – KO, elastic with joints, prefabricated, includes fitting and adjustment
L1815 – KO, elastic or other elastic type material with condylar pad(s), prefabricated, includes fitting and adjustment
L1820 – KO, elastic with condylar pads and joints, with or without patellar control, prefabricated, includes fitting and adjustment
L1825 – KO, elastic knee cap, prefabricated, includes fitting and adjustment
L1830 – KO, immobilizer, canvas longitudinal, prefabricated, includes fitting and adjustment
L1831 – KO, locking knee joint(s), positional orthosis, prefabricated, includes fitting and adjustment
L1832 – KO, adjustable knee joints, (unicentric or polycentric) positional orthosis, rigid support, prefabricated, includes fitting and adjustment
L1834 – KO, without knee joint, rigid, custom fabricated
L1836 – KO, rigid, without joint(s), includes soft interface material, prefabricated, includes fitting and adjustment
L1840 – KO, derotation, medial-lateral, anterior cruciate ligament, custom fabricated
L1843 – KO, single upright, thigh and calf, with adjustable flexion and extension joint (unicentric or polycentric), medial-lateral and rotation control, with or without varus/valgus adjustment, prefabricated, includes fitting and adjustment
L1844 – KO, single upright, thigh and calf, with adjustable flexion and extension joint (unicentric or polycentric), medial-lateral and rotation control, with or without varus/valgus adjustment, custom fabricated
L1845 – KO, double upright, thigh and calf, with adjustable flexion and extension joint (unicentric or polycentric), medial-lateral and rotation control, with or without varus/valgus adjustment, prefabricated, includes fitting and adjustment
L1846 – KO, double upright, thigh and calf, with adjustable flexion and extension joint (unicentric or polycentric), medial-lateral and rotation control, with or without varus/valgus adjustment, custom fabricated
L1847 – KO, double upright with adjustable joint, with inflatable air support chamber(s), prefabricated, includes fitting and adjustment
L1850 – KO, Swedish type, prefabricated, includes fitting and adjustment
L1860 – KO, modification of supracondylar prosthetic socket, custom fabricated (SK)
L1900 – AFO, spring wire, dorsiflexion assist calf band, custom fabricated
L1901 – Ankle orthosis, elastic, prefabricated, includes fitting and adjustment (E.G., neoprene, lycra)
L1902 – AFO, ankle gauntlet, prefabricated, includes fitting and adjustment
L1904 – AFO, molded ankle gauntlet, custom fabricated
L1906 – AFO, multiligamentus ankle support, prefabricated, includes fitting and adjustment
L1907 – AFO, supramalleolar with straps, with or without interface/pads, custom fabricated
L1910 – AFO, posterior, single bar, clasp attachment to shoe counter, prefabricated, includes fitting and adjustment
L1920 – AFO, single upright with static or adjustable stop (Phelps or Perlstein type), custom fabricated
L1930 – AFO, plastic or other material, prefabricated, includes fitting and adjustment
L1932 – AFO, rigid anterior tibial section, total carbon fiber or equal material, prefabricated, includes fitting and adjustment
L1940 – AFO, plastic or other material, custom fabricated
L1945 – AFO, plastic, rigid anterior tibial section (floor reaction), custom fabricated
L1950 – AFO, spiral, (Institute of Rehabilitative Medicine type), plastic, custom fabricated
L1951 – AFO, spiral, (Institute of Rehabilitative Medicine type), plastic or other material, prefabricated, includes fitting and adjustment
L1960 – AFO, posterior solid ankle, plastic, custom fabricated
L1970 – AFO, plastic with ankle joint, custom fabricated
L1971 – AFO, plastic or other material with ankle joint, prefabricated, includes fitting and adjustment
L1980 – AFO, single upright free plantar dorsiflexion, solid stirrup, calf band/cuff (single bar “BK” orthosis), custom fabricated
L1990 – AFO, double upright free plantar dorsiflexion, solid stirrup, calf band/cuff (double bar “BK” orthosis), custom fabricated
L2000 – KAFO, single upright, free knee, free ankle, solid stirrup, thigh and calf band/cuffs (single bar “AK” orthosis), custom fabricated
L2005 – KAFO, any material, single or double upright, stance control, automatic lock and swing phase release, mechanical activation, includes ankle joint, any type, custom fabricated
L2010 – KAFO, single upright, free ankle, solid stirrup, thigh and calf band/cuffs (single bar “AK” orthosis), without knee joint, custom fabricated
L2020 – KAFO, double upright, free ankle, solid stirrup, thigh and calf band/cuffs (double bar “AK” orthosis), custom fabricated
L2030 – KAFO, double upright, free ankle, solid stirrup, thigh and calf bands/cuffs (double bar “AK” orthosis), without knee joint, custom fabricated
L2034 – KAFO, full plastic, single upright, with or without free motion knee, medial lateral rotation control, with or without free motion ankle, custom fabricated
L2035 – KAFO, full plastic, static (pediatric size), without free motion ankle, prefabricated, includes fitting and adjustment
L2036 – KAFO, full plastic, double upright, with or without free motion knee, with or without free motion ankle, custom fabricated
L2037 – KAFO, full plastic, single upright, with or without free motion knee, with or without free motion ankle, custom fabricated
L2038 – KAFO, full plastic, with or without free motion knee, multi-axis ankle, custom fabricated
L2040 – HKAFO, torsion control, bilateral rotation straps, pelvic band/belt, custom fabricated
L2050 – HKAFO, torsion control, bilateral torsion cables, hip joint, pelvic band/belt, custom fabricated
L2060 – HKAFO, torsion control, bilateral torsion cables, ball bearing hip joint, pelvic band/belt, custom fabricated
L2070 – HKAFO, torsion control, unilateral rotation straps, pelvic band/belt, custom fabricated
L2080 – HKAFO, torsion control, unilateral torsion cable, hip joint, pelvic band/belt, custom fabricated
L2090 – HKAFO, torsion control, unilateral torsion cable, ball bearing hip joint, pelvic band/belt, custom fabricated
L2106 – AFO, fracture orthosis, tibial fracture cast orthosis, thermoplastic type casting material, custom fabricated
L2108 – AFO, fracture orthosis, tibial fracture cast orthosis, custom fabricated
L2112 – AFO, fracture orthosis, tibial fracture orthosis, soft, prefabricated, includes fitting and adjustment
L2114 – AFO, fracture orthosis, tibial fracture orthosis, semi-rigid, prefabricated, includes fitting and adjustment
L2116 – AFO, fracture orthosis, tibial fracture orthosis, rigid, prefabricated, includes fitting and adjustment
L2126 – KAFO, fracture orthosis, femoral fracture cast orthosis, thermoplastic type casting material, custom fabricated
L2128 – KAFO, fracture orthosis, femoral fracture cast orthosis, custom fabricated
L2132 – KAFO, fracture orthosis, femoral fracture cast orthosis, soft, prefabricated, includes fitting and adjustment
L2134 – KAFO, fracture orthosis, femoral fracture cast orthosis, semi-rigid, prefabricated, includes fitting and adjustment
L2136 – KAFO, fracture orthosis, femoral fracture cast orthosis, rigid, prefabricated, includes fitting and adjustment
L2180 – Addition to lower extremity fracture orthosis, plastic shoe insert with ankle joints
L2182 – Addition to lower extremity fracture orthosis, drop lock knee joint
L2184 – Addition to lower extremity fracture orthosis, limited motion knee joint
L2186 – Addition to lower extremity fracture orthosis, adjustable motion knee joint, Lerman type
L2188 – Addition to lower extremity fracture orthosis, quadrilateral brim
L2190 – Addition to lower extremity fracture orthosis, waist belt
L2192 – Addition to lower extremity fracture orthosis, hip joint, pelvic band, thigh flange, and pelvic belt
L2200 – Addition to lower extremity, limited ankle motion, each joint
L2210 – Addition to lower extremity, dorsiflexion assist (plantar flexion resist), each joint
L2220 – Addition to lower extremity, dorsiflexion and plantar flexion assist/resist, each joint
L2230 – Addition to lower extremity, split flat caliper stirrups and plate attachment
L2232 – Addition to lower extremity fracture orthosis, rocker bottom for total contact ankle foot orthosis, for custom fabricated orthosis only
L2240 – Addition to lower extremity, round caliper and plate attachment
L2250 – Addition to lower extremity, foot plate, molded to patient model, stirrup attachment
L2260 – Addition to lower extremity, reinforced solid stirrup (Scott-Craig type)
L2265 – Addition to lower extremity, long tongue stirrup
L2270 – Addition to lower extremity, varus/valgus correction (“T”) strap, padded/lined or malleolus pad
L2275 – Addition to lower extremity, varus/valgus correction, plastic modification, padded/lined
L2280 – Addition to lower extremity, molded inner boot
L2300 – Addition to lower extremity, abduction bar (bilateral hip involvement), jointed, adjustable
L2310 – Addition to lower extremity, abduction bar, straight
L2320 – Addition to lower extremity, non-molded lacer for custom fabricated orthosis only
L2330 – Addition to lower extremity, lacer, molded to patient model for custom fabricated orthosis only
L2335 – Addition to lower extremity, anterior swing band
L2340 – Addition to lower extremity, pre-tibial shell, molded to patient model
L2350 – Addition to lower extremity, prosthetic type, (BK) socket, molded to patient model, (used for “PTB” “AFO” orthoses)
L2360 – Addition to lower extremity, extended steel shank
L2370 – Addition to lower extremity, Patten bottom
L2375 – Addition to lower extremity, torsion control, ankle joint and half solid stirrup
L2380 – Addition to lower extremity, torsion control, straight knee joint, each joint
L2385 – Addition to lower extremity, straight knee joint, heavy duty, each joint
L2387 – Addition to lower extremity, polycentric knee joint, for custom fabricated knee ankle foot orthosis, each joint
L2390 – Addition to lower extremity, offset knee joint, each joint
L2395 – Addition to lower extremity, offset knee joint, heavy duty, each joint
L2397 – Addition to lower extremity orthosis, suspension sleeve
L2405 – Addition to knee joint, drop lock, each
L2415 – Addition to knee lock with integrated release mechanism (bail, cable, or equal), any material, each joint
L2425 – Addition to knee joint, disc or dial lock for adjustable knee flexion, each joint
L2430 – Addition to knee joint, ratchet lock for active and progressive knee extension, each joint
L2492 – Addition to knee joint, lift loop for drop lock ring
L2500 – Addition to lower extremity, thigh/weight bearing, gluteal/ischial weight bearing, ring
L2510 – Addition to lower extremity, thigh/weight bearing, quadrilateral brim, molded to patient model
L2520 – Addition to lower extremity, thigh/weight bearing, quadrilateral brim, custom fitted
L2525 – Addition to lower extremity, thigh/weight bearing, ischial containment/narrow M-L brim molded to patient model
L2526 – Addition to lower extremity, thigh/weight bearing, Ischial containment/narrow M-L brim, custom fitted
L2530 – Addition to lower extremity, thigh/weight bearing, lacer, non-molded
L2540 – Addition to lower extremity, thigh/weight bearing, lacer, molded to patient model
L2550 – Addition to lower extremity, thigh/weight bearing, high roll cuff
L2570 – Addition to lower extremity, pelvic control, hip joint, Clevis type, two position joint, each
L2580 – Addition to lower extremity, pelvic control, pelvic sling
L2600 – Addition to lower extremity, pelvic control, hip joint, Clevis type, or thrust bearing, free, each
L2610 – Addition to lower extremity, pelvic control, hip joint, Clevis type or thrust bearing, lock, each
L2620 – Addition to lower extremity, pelvic control, hip joint, heavy-duty, each
L2622 – Addition to lower extremity, pelvic control, hip joint, adjustable flexion, each
L2624 – Addition to lower extremity, pelvic control, hip joint, adjustable flexion, extension, abduction control, each
L2627 – Addition to lower extremity, pelvic control, plastic, molded to patient model, reciprocating hip joint and cables
L2628 – Addition to lower extremity, pelvic control, metal frame, reciprocating hip joint and cables
L2630 – Addition to lower extremity, pelvic control, band and belt, unilateral
L2640 – Addition to lower extremity, pelvic control, band and belt, bilateral
L2650 – Addition to lower extremity, pelvic and thoracic control, gluteal pad, each
L2660 – Addition to lower extremity, thoracic control, thoracic band
L2670 – Addition to lower extremity, thoracic control, paraspinal uprights
L2680 – Addition to lower extremity, thoracic control, lateral support uprights
L2750 – Addition to lower extremity orthosis, plating chrome or nickel, per bar
L2755 – Addition to lower extremity orthosis, high strength, lightweight material, all hybrid lamination/prepreg composite, per segment for custom fabricated orthosis only
L2760 – Addition to lower extremity orthosis, extension, per extension, per bar (for lineal adjustment for growth)
L2768 – Orthotic side bar disconnect device, per bar
L2770 – Addition to lower extremity orthosis, any material, per bar or joint
L2780 – Addition to lower extremity orthosis, non-corrosive finish, per bar
L2785 – Addition to lower extremity orthosis, drop lock retainer, each
L2795 – Addition to lower extremity orthosis, knee control, full kneecap
L2800 – Addition to lower extremity orthosis, knee control, knee cap, medial or lateral pull, for use with custom fabricated orthosis only
L2810 – Addition to lower extremity orthosis, knee control, condylar pad
L2820 – Addition to lower extremity orthosis, soft interface for molded plastic, below knee section
L2830 – Addition to lower extremity orthosis, soft interface for molded plastic, above knee section
L2840 – Addition to lower extremity orthosis, tibial length sock, fracture or equal, each
L2850 – Addition to lower extremity orthosis, femoral length sock, fracture or equal, each
*L2860 – Addition to lower extremity joint, knee or ankle, concentric adjustable torsion style mechanism, each
L2999 – Lower extremity orthoses, not otherwise specified

* L2860 Invalid for submission to Medicare but may be acceptable for other insurers.
Orthopedic Shoes

L3000 – Foot, insert, removable, molded to patient model, “UCB” type, Berkeley shell, each
L3001 – Foot, insert, removable, molded to patient model, Spenco, each
L3002 – Foot, insert, removable, molded to patient model, Plastazote or equal, each
L3003 – Foot, insert, removable, molded to patient model, silicone gel, each
L3010 – Foot, insert, removable, molded to patient model, longitudinal arch support, each
L3020 – Foot, insert, removable, molded to patient model, longitudinal/metatarsal support, each
L3030 – Foot, insert, removable, formed to patient foot, each
L3031 – Foot, insert/plate, removable, addition to lower extremity orthosis, high strength, lightweight material, all hybrid lamination/prepreg composite, each
L3040 – Foot, arch support, removable, premolded, longitudinal, each
L3050 – Foot, arch support, removable, premolded, metatarsal, each
L3060 – Foot, arch support, removable, premolded, longitudinal/metatarsal, each
L3070 – Foot, arch support, non-removable attached to shoe, longitudinal, each
L3080 – Foot, arch support, non-removable attached to shoe, metatarsal, each
L3090 – Foot, arch support, non-removable attached to shoe, longitudinal/metatarsal, each
L3100 – Hallus-Valgus night dynamic splint
L3140 – Foot, abduction rotation bar, including shoes
L3150 – Foot, abduction rotation bar, without shoes
L3160 – Foot, adjustable shoe-styled positioning device
L3170 – Foot, plastic, silicone or equal, heel stabilizer, each
L3201 – Orthopedic shoe, oxford with supinator or pronator, infant
L3202 – Orthopedic shoe, oxford with supinator or pronator, child
L3203 – Orthopedic shoe, oxford with supinator or pronator, junior
L3204 – Orthopedic shoe, hightop with supinator or pronator, infant
L3206 – Orthopedic shoe, hightop with supinator or pronator, child
L3207 – Orthopedic shoe, hightop with supinator or pronator, junior
L3208 – Surgical boot, each, infant
L3209 – Surgical boot, each, child
L3211 – Surgical boot, each, junior
L3212 – Benesch boot, pair, infant
L3213 – Benesch boot, pair, child
L3214 – Benesch boot, pair, junior
L3215 – Orthopedic footwear, ladies shoe, oxford, each
L3216 – Orthopedic footwear, ladies shoe, depth inlay, each
L3217 – Orthopedic footwear, ladies shoe, hightop, depth inlay, each
L3219 – Orthopedic footwear, men’s shoe, oxford, each
L3221 – Orthopedic footwear, men’s shoe, depth inlay, each
L3222 – Orthopedic footwear, men’s shoe, hightop, depth inlay, each
L3224 – Orthopedic footwear, woman’s shoe, oxford, used as an integral part of a brace (orthosis)
L3225 – Orthopedic footwear, man’s shoe, oxford, used as an integral part of a brace (orthosis)
L3230 – Orthopedic footwear, custom shoe, depth inlay, each
L3250 – Orthopedic footwear, custom molded shoe, removable inner mold, prosthetic shoe, each
L3251 – Foot, shoe molded to patient model, silicone shoe, each
L3252 – Foot, shoe molded to patient model, Plastazote (or similar), custom fabricated, each
L3253 – Foot, molded shoe Plastazote (or similar), custom fitted, each
L3254 – Non-standard size or width
L3255 – Non-standard size or length
L3257 – Orthopedic footwear, additional charge for split size
L3260 – Surgical boot/shoe, each
L3265 – Plastazote sandal, each
L3300 – Lift, elevation, heel, tapered to metatarsals, per inch
L3310 – Lift, elevation, heel and sole, neoprene, per inch
L3320 – Lift, elevation, heel and sole, cork, per inch
L3330 – Lift, elevation, metal extension (skate)
L3332 – Lift, elevation, inside shoe, tapered, up to one-half inch
L3334 – Lift, elevation, heel, per inch
L3340 – Heel wedge, SACH
L3350 – Heel wedge
L3360 – Sole wedge, outside sole
L3370 – Sole wedge, between sole
L3380 – Clubfoot wedge
L3390 – Outflare wedge
L3400 – Metatarsal bar wedge, rocker
L3410 – Metatarsal bar wedge, between sole
L3420 – Full sole and heel wedge, between sole
L3430 – Heel, counter, plastic reinforced
L3440 – Heel, counter, leather reinforced
L3450 – Heel, SACH cushion type
L3455 – Heel, new leather, standard
L3460 – Heel, new rubber, standard
L3465 – Heel, Thomas with wedge
L3470 – Heel, Thomas extended to ball
L3480 – Heel, pad and depression for spur
L3485 – Heel, pad, removable for spur
L3500 – Orthopedic shoe addition, insole, leather
L3510 – Orthopedic shoe addition, insole, rubber
L3520 – Orthopedic shoe addition, insole, felt covered with leather
L3530 – Orthopedic shoe addition, sole, half
L3540 – Orthopedic shoe addition, sole, full
L3550 – Orthopedic shoe addition, toe tap, standard
L3560 – Orthopedic shoe addition, toe tap, horseshoe
L3570 – Orthopedic shoe addition, special extension to instep (leather with eyelets)
L3580 – Orthopedic shoe addition, convert instep to velcro closure
L3590 – Orthopedic shoe addition, convert firm shoe counter to soft counter
L3595 – Orthopedic shoe addition, March bar
L3600 – Transfer of an orthosis from one shoe to another, caliper plate, existing
L3610 – Transfer of an orthosis from one shoe to another, caliper plate, new
L3620 – Transfer of an orthosis from one shoe to another, solid stirrup, existing
L3630 – Transfer of an orthosis from one shoe to another, solid stirrup, new
L3640 – Transfer of an orthosis from one shoe to another, Dennis Browne splint (Riveton), both shoes
L3649 – Orthopedic shoe, modification, addition or transfer, not otherwise specified

**Upper Limb Orthoses**

L3650 – SO, figure of eight design abduction restrainer, prefabricated, includes fitting and adjustment
L3651 – SO, single shoulder, elastic, prefabricated, includes fitting and adjustment (E.G., neoprene, lycra)
L3652 – SO, double shoulder, elastic, prefabricated, includes fitting and adjustment (E.G., neoprene, lycra)
L3660 – SO, figure of eight design abduction restrainer, canvas and webbing, prefabricated, includes fitting and adjustment
L3670 – SO, acromion/clavicular (canvas and webbing type), prefabricated, includes fitting and adjustment
L3671 – SO, shoulder cap design, without joints, may include soft interface, straps, custom fabricated, includes fitting and adjustment
L3672 – SO, abduction positioning (airplane design), thoracic component and support bar, without joints, may include soft interface, straps, custom fabricated, includes fitting and adjustment
L3673 – SO, abduction positioning (airplane design), thoracic component and support bar, includes nontorsion joint/turbuckle, may include soft interface, straps, custom fabricated, includes fitting and adjustment
L3675 – SO, vest type abduction restrainer, canvas webbing type or equal, prefabricated, includes fitting and adjustment
L3677 – SO, hard plastic, shoulder stabilizer, prefabricated, includes fitting and adjustment
L3700 – EO, elastic with stays, prefabricated, includes fitting and adjustment
L3701 – EO, elastic, prefabricated, includes fitting and adjustment (E.G., neoprene, lycra)
L3702 – EO, without joints, may include soft interface, straps, custom fabricated, includes fitting and adjustment
L3710 – EO, elastic with metal joints, prefabricated, includes fitting and adjustment
L3720 – EO, double upright with forearm/arm cuffs, free motion, custom fabricated
L3730 – EO, double upright with forearm/arm cuffs, extension/flexion assist, custom fabricated
L3740 – EO, double upright with forearm/arm cuffs, adjustable position lock with active control, custom fabricated
L3760 – EO, with adjustable position locking joint(s), prefabricated, includes fitting and adjustments, any type
L3762 – EO, rigid, without joints, includes soft interface material, prefabricated, includes fitting and adjustment
L3763 – EWHO, rigid, without joints, may include soft interface, straps, custom fabricated, includes fitting and adjustment
L3764 – EWHO, includes one or more nontorsion joints, elastic bands, turnbuckles, may include soft interface, straps, custom fabricated, includes fitting and adjustment
L3765 – EWHFO, rigid, without joints, may include soft interface, straps, custom fabricated, includes fitting and adjustment
L3766 – EWHFO, includes one or more nontorsion joints, elastic bands, turnbuckles, may include soft interface, straps, custom fabricated, includes fitting and adjustment
L3806 – WHFO, includes one or more nontorsion joint(s), turnbuckles, elastic bands/springs, may include soft interface material, straps, custom fabricated, includes fitting and adjustment
L3807 – WHFO, without joint(s), prefabricated, includes fitting and adjustments, any type
L3808 – WHFO, rigid without joints, may include soft interface material; straps, custom fabricated, includes fitting and adjustment.
*L3890 – Addition to upper extremity joint, wrist or elbow, concentric adjustable torsion style mechanism, each
L3900 – WHFO, dynamic flexor hinge, reciprocal wrist extension/flexion, finger flexion/extension, wrist or finger driven, custom fabricated
L3901 – WHFO, dynamic flexor hinge, reciprocal wrist extension/flexion, finger flexion/extension, cable driven, custom fabricated
L3904 – WHFO, external powered, electric, custom fabricated
L3905 – WHO, includes one or more nontorsion joints, elastic bands, turnbuckles, may include soft interface, straps, custom fabricated, includes fitting and adjustment
L3906 – WHO, without joints, may include soft interface, straps, custom fabricated, includes fitting and adjustment
L3908 – WHO, wrist extension control cock-up, non-molded, prefabricated, includes fitting and adjustment
L3909 – WO, elastic, prefabricated, includes fitting and adjustment (E.G., neoprene, lycra)
L3911 – WHFO, elastic, prefabricated, includes fitting and adjustment (E.G., neoprene, lycra)
L3912 – HFO, flexion glove with elastic finger control, prefabricated, includes fitting and adjustment
L3913 – HFO, without joints, may include soft interface, straps, custom fabricated, includes fitting and adjustment
L3915 – WHO, includes one or more nontorsion joint(s), elastic bands, turnbuckles, may include soft interface, straps, custom fabricated, includes fitting and adjustment
L3917 – HO, metacarpal fracture orthosis, prefabricated, includes fitting and adjustment
L3919 – HO, without joints, may include soft interface, straps, custom fabricated, includes fitting and adjustment
L3921 – HFO, includes one or more nontorsion joints, elastic bands, turnbuckles, may include soft interface, straps, custom fabricated, includes fitting and adjustment
L3923 – HFO, without joint(s), may include soft interface, straps, prefabricated, includes fitting and adjustment
L3925 – FO, proximal interphalangeal (pip)/distal interphalangeal (dip), non torsion joint/spring, extension/flexion, may include soft interface material, prefabricated, includes fitting and adjustment
L3927 – FO, proximal interphalangeal (pip)/distal interphalangeal (dip), without joint/spring, extension/flexion (e.g. static or ring type), may include soft interface material, prefabricated, includes fitting and adjustment
L3929 – HFO, includes one or more non torsion joint(s), turnbuckles, elastic bands/springs, may include soft interface material, straps, prefabricated, includes fitting and adjustment
L3931 – WHFO, includes one or more non torsion joint(s), turnbuckles, elastic bands/springs, may include soft interface material, straps, prefabricated, includes fitting and adjustment
L3933 – FO, without joints, may include soft interface, custom fabricated, includes fitting and adjustment
L3935 – FO, nontorsion joint, may include soft interface, custom fabricated, includes fitting and adjustment
L3956 – Addition of joint to upper extremity orthosis, any material, per joint
L3960 – SEWHO, abduction positioning, airplane design, prefabricated, includes fitting and adjustment
L3961 – SEWHO, shoulder cap design, without joints, may include soft interface, straps, custom fabricated, includes fitting and adjustment
L3962 – SEWHO, abduction positioning, Erbs palsey design, prefabricated, includes fitting and adjustment
L3964 – SEO, mobile arm support attached to wheelchair, balanced, adjustable, prefabricated, includes fitting and adjustment
L3965 – SEO, mobile arm support attached to wheelchair, balanced, adjustable Rancho type, prefabricated, includes fitting and adjustment
L3966 – SEO, mobile arm support attached to wheelchair, balanced, reclining, prefabricated, includes fitting and adjustment
L3967 – SEWHO, abduction positioning (airplane design), thoracic component and support bar, without joints, may include soft interface, straps, custom fabricated, includes fitting and adjustment
L3968 – SEO, mobile arm support attached to wheelchair, balanced, friction arm support (friction dampening to proximal and distal joints), prefabricated, includes fitting and adjustment
L3969 – SEO, mobile arm support, monosuspension arm and hand support, overhead elbow forearm hand sling support, yoke type suspension support, prefabricated, includes fitting and adjustment
L3970 – SEO, addition to mobile arm support, elevating proximal arm
L3971 – SEWHO, shoulder cap design, includes one or more nontorsion joints, elastic bands, turnbuckles, may include soft interface, straps, custom fabricated, includes fitting and adjustment
L3972 – SEO, addition to mobile arm support, offset or lateral rocker arm with elastic balance control
L3973 – SEWHO, abduction positioning (airplane design), thoracic component and support bar, includes one or more nontorsion joints, elastic bands, turnbuckles, may include soft interface, straps, custom fabricated, includes fitting and adjustment
L3974 – SEO, addition to mobile arm support, supinator
L3975 – SEWHFO, shoulder cap design, without joints, may include soft interface, straps, custom fabricated, includes fitting and adjustment
L3976 – SEWHFO, abduction positioning (airplane design), thoracic component and support bar, without joints, may include soft interface, straps, custom fabricated, includes fitting and adjustment
L3977 – SEWHFO, shoulder cap design, includes one or more nontorsion joints, elastic bands, turnbuckles, may include soft interface, straps, custom fabricated, includes fitting and adjustment
L3978 – SEWHFO, abduction positioning (airplane design), thoracic component and support bar, includes one or more nontorsion joints, elastic bands, turnbuckles, may include soft interface, straps, custom fabricated, includes fitting and adjustment
L3980 – Upper extremity fracture orthosis, humeral, prefabricated, includes fitting and adjustment
L3982 – Upper extremity fracture orthosis, radius/ulnar, prefabricated, includes fitting and adjustment
L3984 – Upper extremity fracture orthosis, wrist, prefabricated, includes fitting and adjustment
L3995 – Addition to upper extremity orthosis, sock, fracture or equal, each
L3999 – Upper limb orthosis, not otherwise specified

* L3890 Invalid for submission to Medicare but may be acceptable for other insurers.

**Replace/Repair**

L4000 – Replace girdle for spinal orthosis (CTLSO or SO)
L4002 – Replacement strap, any orthosis, includes all components, any length, any type
L4010 – Replace trilateral socket brim
L4020 – Replace quadrilateral socket brim, molded to patient model
L4030 – Replace quadrilateral socket brim, custom fitted
L4040 – Replace molded thigh lacer, for custom fabricated orthosis only
L4045 – Replace non-molded thigh lacer, for custom fabricated orthosis only
L4050 – Replace molded calf lacer, for custom fabricated orthosis only
L4055 – Replace non-molded calf lacer, for custom fabricated orthosis only
L4060 – Replace high roll cuff
L4070 – Replace proximal and distal upright for KAFO
L4080 – Replace metal bands KAFO, proximal thigh
L4090 – Replace metal bands KAFO-AFO, calf or distal thigh
L4100 – Replace leather cuff KAFO, proximal thigh
L4110 – Replace leather cuff KAFO-AFO, calf or distal thigh
L4130 – Replace pre Tibial shell
L4205 – Repair of orthotic device, labor component, per 15 minutes
L4210 – Repair of orthotic device, repair or replace minor parts

Ancillary Orthoses
L4350 – Ankle control orthosis, stirrup style, rigid, includes any type of interface (E.G., pneumatic, gel), prefabricated, includes fitting and adjustment
L4360 – Walking boot, pneumatic, with or without joints, with or without interface material, prefabricated, includes fitting and adjustment
L4370 – Pneumatic full leg splint, prefabricated, includes fitting and adjustment
L4380 – Pneumatic knee splint, prefabricated, includes fitting and adjustment
L4386 – Walking boot, non-pneumatic, with or without joints, with or without interface material, prefabricated, includes fitting and adjustment
L4392 – Replacement, soft interface material, static AFO
L4394 – Replace soft interface material, foot drop splint
L4396 – Static AFO, including soft interface material, adjustable for fit, for positioning, pressure reduction, may be used for minimal ambulation, prefabricated, includes fitting and adjustment
L4398 – Foot drop splint, recumbent positioning device, prefabricated, includes fitting and adjustment

Diabetic Shoes
A5500 – For diabetics only, fitting (including follow-up), custom preparation and supply of off-the-shelf depth-inlay shoe manufactured to accommodate multi-density insert(s), per shoe
A5501 – For diabetics only, fitting (including follow-up), custom preparation and supply of shoe molded from cast(s) of patient’s foot (custom molded shoe), per shoe
A5503 – For diabetics only, modification (including fitting) of off-the-shelf depth-inlay shoe or custom-molded shoe with roller or rigid rocker bottom, per shoe
A5504 – For diabetics only, modification (including fitting) of off-the-shelf depth-inlay shoe or custom-molded shoe with wedge(s), per shoe
A5505 – For diabetics only, modification (including fitting) of off-the-shelf depth-inlay shoe or custom-molded shoe with metatarsal bar, per shoe
A5506 – For diabetics only, modification (including fitting) of off-the-shelf depth-inlay shoe or custom-molded shoe with off-set heel(s), per shoe
A5507 – For diabetics only, not otherwise specified modification (including fitting) of off-the-shelf depth-inlay shoe or custom-molded shoe, per shoe
A5508 – For diabetics only, deluxe feature of off-the-shelf depth inlay shoe or custom molded shoe, per shoe
A5510 – For diabetics only, direct formed, compression molded to patient’s foot without external heat source, multiple density insert(s), prefabricated, per shoe
A5512 – For diabetics only, multiple density insert, direct formed, molded to foot after external heat source of 230 degrees Fahrenheit or higher, total contact with patient’s foot, including arch, base layer minimum of ¼ inch material of Shore A 35 durometer or 3/16 inch material of Shore A 40 durometer (or higher), prefabricated, each
A5513 – For diabetics only, multiple density insert, custom molded from model of patient’s foot, total contact with patient’s foot, including arch, base layer minimum of 3/16 inch material of shore a 35 durometer or higher, includes arch filler and other shaping material, custom fabricated, each

Elastic Supports
A6530 – Gradient compression stocking, below knee, 18-30 mmhg, each
A6531 – Gradient compression stocking, below knee, 30-40 mmhg, each
A6532 – Gradient compression stocking, below knee, 40-50 mmhg, each
